

## **NOTICE TO THE BAR RE: JUDICIAL PERFORMANCE SURVEY**

In May 2013, the Federal Judicial Center conducted a survey of attorneys regarding our judicial performance. The FJC compiled the responses and comments and delivered a report to each of us several months later. At all times, the anonymity of the responses was preserved.

We have had the opportunity to consider the feedback we received from the members of the bar regarding our judicial performance and wish to express our appreciation to the many attorneys who took the time to participate in the process.
